

# FOR VICTORY

## Great Favorites in London No Sight Sae Proud and Bonny As Canadian Massed Pipe Bands

By DOUG HOW  
LONDON, March 30.—(CP)—There is no sight to be seen in London these warlike days as proud and sae bonnie as the massed pipe bands of His Majesty's regiments of Canadian Scots.

They have marched and played, at times 230 strong, before hundreds of thousands of the people of this capital in the years their battalions have been in preparation for action on foreign soil. The precision of their lines, the brilliant, contrasting shades of their kilts, the majesty of their pipes and drums have won the hearts of many to whom the music of the Scottish hills was a thing of mystery and of doubt.

Even Scots, familiar with the pageants of color that are seen in the Highland games at Braemar, have been heard to marvel at the precision of this great, disciplined spectacle they present.

Five thousand saw the first performance between halves of the first Canadian Army band, the 1st Canadian Army Band, at the White City Stadium in February. Last Sunday they performed before 30,000 in Hyde Park. There were more of 10 battalions, from Nova Scotia to British Columbia.

# HERO RETURNS

## Hero Returns Hedero on his way home Pte. W. L. Squires, member of The Loyd Edmonton Regiment from Peace River, who won the Military Medal for gallantry at Oma, passed through Edmon- ton, Alberta, on his way home. Squires praised the gallant work of the regiment in Sicily and Italy and heaped warm praise on Brig. J. C. Jefferson, D.S.O., E.D., former commanding officer of the unit.

Under Pipe Major Macdonald, the pipe majors of all those 10 battalions, among them Robert Stoker of Edmonton, Robert Wishart, Barkerville, B.C., Neil Petherick, Winnipeg, Andrew Paddock, Victoria, and William McKelvie, Winnipeg.

For all that Wallace this was a day of serious business. For Wallace the call to duty finally lost its appeal and he fell to bawling with a stray, black mongrel.

Pipe Major Stoker is the son of Robert Stoker of 1844 M. street, Edmonton, who was killed in the Canadian Highlanders. He was well known for his long hair and his pipe. He was a member of the Edmonton Boys Pipe Band and was a member of the C.N.R. Pipe Band. He was a member of the C.N.R. Pipe Band. He was a member of the C.N.R. Pipe Band.

# DEMONSTRATION OF UNITY

## Churchill Wins Smashing Confidence Vote in House McGeer Raps Debt

By JOSEPH W. GRIGG  
Ottawa, March 30.—(CP)—The House of Commons today gave an overwhelming vote of confidence in the House of Commons today when Tuesday night's defeat on an amendment to the education bill was reversed 425 to 23.

The result is regarded as a demonstration of national unity in the face of the impending April invasion of Hitler's Europe. The government's victory caused no surprise as it was regarded as a foregone conclusion. Many "rebels" who voted against the government Tuesday night did so about-face today to register full confidence in Churchill's conduct of the war.

The adoption and prosecution of such a policy would be the correct interpretation of the promise of the Liberal Party in 1935, in that the Bank of Canada should develop the development of the national currency and credit in terms of public need, not in terms of private gain.

Mr. McGeer's address was devoted in the main to post-war reconstruction, which, he said, must be considered now, even though the war is still in progress.

# GERMANS LOSE

## Key Bastion Of Cernaui

By ROBERT MUSEL  
Exclusive to The Edmonton Bulletin  
Ottawa, March 30.—(CP)—The Red army has stormed and captured Cernaui, gateway to the Balkans, in one of its great victories of the sensational offensive on the southern front. Moscow announced Tuesday.

Premier Josef Stalin proclaimed the capture of Cernaui, a key German command acknowledged its loss. The fall of Cernaui, third largest city of pre-war Rumania, opened the way for a Russian sweep across the Rumanian plains into the heart of Adolf Hitler's Balkan satellites.

New Westminster Takes Series 3-1 to Enter Western Final Round

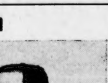

## Lodestars vs. Brother Flors

M.D. 13 Finals

Will be Staged  
Calgary, April 6

Navy's Gain

Will Tackle

Port Arthur  
On Saturday

Warren Giles Wants Lou

HAVING turned only long enough in the Saskatoon arena to give a few salutory hockey lessons to Flin Flon Bombers, Saskatchewan's senior champions, the New Westminster Lodestars with three provincial titles in their possession are headed east for Port Arthur and the western final series with Shipbuilders.

If the tendency has been to sell the Lodestars short and they have been underestimated all along—the summary manner in which they dealt with the reinforced Flin Flon team appearing to indicate just such a situation—the series with the Thunder Bay champions should settle the matter once and for all.

The Lakehead club consists chiefly of former Bears, spiked with a few additional players, four of them from Shipbuilders, the other senior team in the Twin Cities, and on paper the Shipbuilders look almost as formidable as any pre-war Allan cup contenders.

**LOOK LIKE STRONG CLUB**  
THEIR coach, Hugh O'Leary, is a former Bear and Allan Cupper. They have two first class goals in Jimmy Hill, a star in the American Association before the war, and Charlie Veitch, just a minor league tank.

As unusually strong defence for a Lakehead team has been uncovered in Joe Gellat, Pete Weyert, Charlie Dunn and Archie Sinclair, four Fort Williamses. The first three have been drafted from Shipbuilders. Gellat is playing on borrowed time insofar as Eddie Shore is concerned, with his indefinite suspension for failure to report to Boston last year has been waived until after the war as long as he plays at the Lakehead.

The Shipbuilders are especially well off for forwards and their wing line of Norm Larson, Stan Robertson and Weicko Kovalits are a trio of stickheads. Second to none, Larson is in action with Brooklyn Americans before their collapse, while Robertson starred with Toronto Flyers and Quebec Aces in the Quebec City top for a year and a half. Kovalits has been a Bear-captain for years.

Canadians Take 10 of 15

### City Soldier Wins Feature In Overseas Boxing Tourney

SOMEWHERE IN ENGLAND, March 30—(CP)—Roddy MacDonald's chances didn't appear bright when he entered the ring against a well-conditioned fellow from the British Army Physical Training Corps.

Roddy had been in a slump since winning the midweek championship of both the British and Canadian armies last year.

But the corporal from Edmonton beat the P.T. instructor to feature a tournament in which Canadians won 10 of 15 bouts from a British team representing Eastern Command.

Punching strongly in his "stand-up" style, Roddy gave the British a three-round decision from Sgt. Inst. Tom Sweeney. His display revived hopes Roddy would develop into a top-notch post-war professional.

**Big Joe** Linn, Calgary trooper, defeated Freddie Fitt of R.E.M.E. in the heavy-weight class.

Veteran campaigner L. Bdr. Billy Brans of Wainman, Sask., edged Billy Rose of R.E.M.E. in the light weight division.

Other Canadian winners were Tip. Tim Doyle of Vancouver, light-weight; Cpl. E. Kay of Gibbons, Alberta; and Sgt. Jack Morgan of Saunders, Alta., welterweights.

**Curling Meeting**  
The final meeting of the executive council of the Alberta Curling Association was held in Edmonton last night by President Parn Roberts.

It will take the form of a dinner meeting, will be held at the Royal George hotel, starting at 6.45. Reports of the various committees, along with financial and auditor's reports will be presented.

**GIRLS**  
The Pittsburgh battle stepped into the ring.

Zivie, who was making his 200th start as a professional boxer, said after the battle he was handicapped by the hand injury but he paid tribute to a coach of a good, strong boxer, and a tough guy to handle.

The Pittsburgh boxer is under contract for another fight before entering the army next month.

The second line will be chosen from Bill McKenzie, Norm Wright, Don Eaton, Gordon Brown and Pettit Lund, the latter is a recent addition and Eaton is the fourth taken from Shipbuilders. All are Lakehead products, excepting Lund, a centre, formerly from Flin Flon. McKenzie and Wright are right wingers and Eaton a left.

**"LIMEYS" APT LAB PUPILS**  
L'former Salt Lake City high school athlete now a prisoner of the Germans, in a letter home tells how a group of Britishers beat some Yankees at their own game, baseball. It appears that American prisoners in an Italian concentration camp decided to set as tutors to their British mates in the middle baseball.

"The teams went through a sort of spring training to teach the British the game," learned last week from the prisoners. The Americans won the first game 12-3, but the British learned well and won the second 9-2. Then in the third, the British downed the Americans 7-0, to win the prize series."

When Bill Dickey, veteran New York Yankee catcher, was drafted into the Navy, it put a serious crimp in his chances of ever becoming the top man of all time in world series play. Dickey now holds 38 games, the record number started with one club. Having been Babe Ruth's mark in the middle baseball.

But Dickey is still 12 short of Frankie Frisch's record. Frisch played 30 series games. Frisch came to the Yankees in 1924 and 24 with the Cardinals. Bill, who has caught more than 100 games, has been with the Yankees for 13 consecutive years, could—if the bank roll is big—find a way to be back with the club—have closed considerable ground on Frisch.

**Bordagays Asks  
Brooklyn Club  
For \$15,000 Raise**

BEAR MOUNTAIN, March 30—Stanley George Bordagay rolled into Bear Mountain, interrupted by the Regina club, and enough to have a request for a \$15,000 raise rejected, and departed in a huff.

Frenchy Bordagay hit 302 in 30 games. He found himself at third base in a baseball game on a cold out there. The "Big Boy" was a brother Ricketts' kinks in or no.

Frenchy Bordagay was back. He loves to play ball and is Frenchy Hines. A Dodger at heart.

Bordagay's story has multiple. He is the veteran of Fresno State has become a character. It was in 1928 that he hit Casey Stengel's head with a ball. The Dodgers won that afternoon and Frenchy was prescribed the good change to be a winning formula. But Stengel decided he wasn't quite that brokehead.

That was the spring Bordagay showed up at the Greater Western Coliseum sporting a moustache. Casey called him George V. Bordagay, and he was an formidable doubles team.

**FINED FOR NOT SLIDING**  
Bordagay was on ground in a game against the Giants. Jimmy Jordan hit safely to left field, and Bordagay was in the way.

Frenchy was fielded the ball quickly, threw perfectly, relates Frenchy. "Rounding third I saw Gus Mancini's bat, plate waiting for me with the ball in his hand."

I stopped and walked to the dugout. "That'll cost you \$25-for not sliding," shouted Stengel, roaring at a Phoenix, Ariz., restaurant. "You oughta fine 'em for sending me in," I asked back. Of course, I was a white one. I stepped from the store, he met a feminine acquaintance and bowed with the bal-keeping gesture that knocked a lit cigarette out of his left hand.

Of course, I was a white one. I stepped from the store, he met a feminine acquaintance and bowed with the bal-keeping gesture that knocked a lit cigarette out of his left hand.

The encounter was witnessed in the third period by eight members: Maurice Duffy and Jimmy Skinner. They drew five-minute major and 10-minute misconduct penalties.

They no sooner entered the penalty box than they were out of the scrap, with the result they were given another 10-minute misconduct penalty. New the fifth of this rough and tumble battle, city police stepped in to break up the fight.

Total of 131 Horses Named  
As Eligible for Six Sprints

BALTIMORE, March 30.—(AP)—A total of 131 horses was named by the Maryland Jockey Club Wednesday as eligible for the six sprints for older sires to be renewed during the 25-day combined Pimlico meeting which will open one week from next Wednesday.

Four of the six-furlong sprints are open for thoroughbreds of both sexes three-year-old and upward, while the fifth is limited to fillies and mares. The one, the Carroll Handicap, only enough attracted the largest number of nominations, 31.

The five stakes: The Rose-Memorial Handicap, \$7,500 added, April 12, 28 nominations; the Harford Handicap, \$7,500 added, May 1, 25 nominations; the Baltimore Spring Handicap, \$7,500 added, May 1, 25 nominations; the Jennings Handicap, \$7,500 added, May 1, 25 nominations; The Carroll, May 11, \$7,500 added, 31 nominations.

Among the more famous thoroughbreds nominated for one or more of the sprints were Greenlee Stable's Shut Out and Devil Diver; Calumet Farm's MacKenzie, Sun Again, Son of Peace, Penicillin, Ocean Wave and Miss Keeneland; H. Guy Redwells' Sallust; H. M. Wolff's Signet and Adulator; Belair Stud's Snatch; K. L. Straus' New Moon; Mrs. Dillou Christopher's Doudrair, and C. C. Green's Cap Cod.

Shut Out, eighth largest number of winners of all time, was named for two of the sprints, the Rose and the Harford, although the son of Equus is usually more at home in the Carroll Handicap.

SPORTSHOTS

By SYD THOMAS

TORONTO, March 30.—(CP)—The Canadian hockey scene has never lived up to its promise and the court game has lagged far behind the counterpart in the United States both in player interest and crowd appeal. Galleries of 10,000 or more are not uncommon to the South Coast hockey scene are the stiff competition from hockey, lack of proper playing facilities, and the mistaken idea of most fans that it's a stiles game.

But great possibilities for the game after the war are envisioned by Capt. Voria Pecora of the Ontario Hockey Association, who is the right accommodation to raise the Canadian game to outstanding heights.

His Almonds did all right to themselves in proper coaching, all opposition in Manitoba. Now an attempt is being made to match them with a Vancouver senior girls' team in a western play-off, with a national series in the offing if financial arrangements can be ironed out.

Ukraine Ties of the American Baseball League have strings on a bulky Ukrainian by name Kasechuk, who picked last year with both the junior Ontario "A" champions, Ottawa Carleton, and the senior "A" contenders, Windsor-Ford Local 260, Kasechuk, 21, has speed, quickness and endurance (he picked part of a senior player) then carried the mail in a senior game the same day last summer. His medical discharge papers from the army look best of all to baseball scouts.

More Player Selections: Continuing the favorite spring picking of hockey best picking Bucko McDonald nominates Ray Gellifre as the "hockey player" player, Dick Irvin and Tommy Ferguson of the Montreal Herald Plump for Maurice Richard, with Gorman competing him with Howie Moreau.

Also, Philie Goodfellow picks Doug Bentley of Chicago as the best left-winger he ever saw. — Just wait while, there'll be a senior player.

The occasional Saturday night baseball game is planned for Bellingham in the Vancouver senior league. — Girls' baseball may be revived in Edmonton this summer by running the Ontario "A" team, Harvey Bennett is headed for Boston Bruins next winter.

WHEAT CROP DOWN  
CANBERRA.—(CP)—Australia's wheat crop this season will be only 100,000 bushels, compared with the average of 160,000 over the last eight years, according to a preliminary estimate by the Australian Wheat Board. The nation's record crop was 210,000 bushels in the first year of the war.

Student Loses  
Suit Against  
School Coach

GALLON, O., March 30.—(AP)—Ralph W. (Bill) Sinner, Jr., 37, who is seeking a court order that would require him to the Galois high school football squad, Wednesday lost a \$25,000 damage suit against Coach James L. Lymper.

Judge Clarence U. Ahl dismissed the suit because of lack of prosecution.

Sinner and his father asked damages last October after the coach barred the boy from the squad for failure to participate in spring workouts. They charged Lymper deprived the youth of a college education by altering the right to enter and receive a college education by altering "false, malicious and defamatory statements" about him.

Still pending is Sinner's petition asking the court to order Lymper to reinstate him to the team on which he played two straight years.

OTTAWA, March 30.—(CP)—Appointment of J. M. Boyer, of Saint John, N.B., as acting Canadian trade commissioner for the United States mid-west, with headquarters in Chicago, was announced today.

Sargent Frames  
Tentative Dates  
Western Finals

PORT ARTHUR, March 30.—(CP)—Frank Sargent, president of the Canadian Amateur Hockey Association, announced Wednesday arrangements for the balance of the western Canada hockey play-offs.

The best-of-five final between New Westminster Loderfats and Port Arthur Shipbuilders will open here Saturday night. Mr. Sargent said.

Should Regina Commandos win from Trail Smoke Eaters in the fourth game of their revised best-of-five junior semi-final to the western final with Port Arthur Flyers will start Saturday night in Winnipeg. However, if extra games are necessary the final will not get underway until April 4.

MAY PAY FOR FRANK  
BRISTOL, Eng.—(CP)—Two schoolboys were ordered by the juvenile court here to compensate Clifton Zoo for two parrots they stole. One parrot died of suffocation after being put in one boy's pocket, and the other was lost when they threw it back over the zoo wall.

NEW YORK, March 30.—(AP)—The biggest day of the life says, "I believe Juan Zurita can lick Beau Jack at Madison Square Gardens Friday night."

Della speaks with authority of the lightweight division of boxing today—because (1) he is a lightweight who figures he can beat anyone in the 135-pound class, and (2) he has seen both Beau Jack and Zurita in several bouts.

This is the most important day of Della's life because his contract was bought Tuesday night by Milton Berle, who carries a knock-out punch in either hand, regards Garcia and the Williams as just two more opponents. He says, "All that I ask is that Garcia or Williams will stand up and swap punches with me. I'll beat them and then maybe get to work at Beau Jack, who has been getting away with murder because he never met anyone a little wiser than me when I see him in a fight with him intelligently. I'll guarantee that Beau Jack doesn't go the distance."

Milton Berle, the screwball actor, says, "I've been a life-long fight fan, but never before did I see a pug who I'd let operate under by any means. Now I know what it means either, but anyway, he looked like a million dollars to me when I saw him in California a few months ago."

Della is a busy scrapper. On Monday night he registered his 34th victory in 39 professional fights. He took a top-sided decision over Leo Francis of Panama, a guy who was refused to be knocked out, at Holyoke, Mass. Previous Dynamite Mike had belted out 20 opponents.

ZURITA OFFERED \$250,000  
DILLIAS manager, Freddie Sweeney, said, "Sure, I sold half of Mike's contract to Milton Berle. Sweeney Milton offered a lot of money and because Berle has a lot of influence that will be used in forcing a title fight with Bob Montgomery or Zurita."

Zurita of Mexico, the National Boxing Association's champion, has been offered a guarantee of \$250,000 to defend his title under the promotion of Nick Lodones of Detroit.

Milton Berle says, "Zurita is cursey if he doesn't accept. For twenty grand, I'd fight Joe Louis if my mother would let me—and I hope she doesn't change her mind. After all, who should Zurita be afraid of Della—just an unknown California kid who might accidentally knock his brains out—hope."

**Buffalo Bisons**  
In Final Round  
BUFFALO, N.Y., March 30.—(AP)—Buffalo Bisons gained the final round of the American Hockey League play-offs last night by whipping Indianapolis Capitals 6-2 for the fourth time in five games of their best-of-seven semi-final series.

Bisons built up a 2-0 lead in the first period on goals by Larry Thibault and Roger Leisner and added another in the second by Max Kaminsky. Hymie Butler then

John McMullen  
Gets Promotion:  
Is Now Captain

CALGARY, March 30.—Promotion of Lieut. John A. McMullen, sports officer of M.D. 13 to the rank of captain, was announced Wednesday by Military District Headquarters at Calgary.

Capt. McMullen, whose home is at 1610 126th street, Edmonton, was born in Edmonton and attended schools there and also Ridley College, St. Catharines, Ontario. He was a salesman in Edmonton prior to his enlistment in September, 1940.

Prior to his appointment as district sports officer in February of this year, Capt. McMullen was battalion sports officer at Camrose Basic Training Centre.

He was a member of the Edmonton Eskimos football team in 1928-29 and a member of the E.A.C. from 1934 to 1940.

Capt. McMullen, a rep. of the army, was the Inter-Service Sports Council at Edmonton last year and organized and managed army participation in track meets.

**N. H. L. Series**  
Resume Tonight

MONTREAL, March 30.—(CP)—Montreal Canadiens haven't won their Stanley cup semi-final series with Toronto Maple Leafs yet, and Chicago Black Hawks haven't eliminated Detroit Red Wings, but the folks are talking here already about what happens when Canada and Hawks meet in the finals.

The Canucks need one more win to knock out the Leafs, and they figure on picking it up here tonight when they return to home ice after two straight wins in Toronto that shot them into a 3-1 lead in the best of seven series. The Hawks are leading their series by the same score.

If Canadiens do move into the finals, will be their first Stanley cup final series since 1922, and Hawks were the opponents on that occasion. Montreal won the best of five 1931 series, but took the full five games to do it.

**Canadian Navy Wins Puck Series**  
AYR, Scotland, March 30.—(CP)—A veteran Royal Canadian Navy team swept to the coastal hockey championship of the Canadian services in Scotland, by defeating Royal Canadian Air Force aggregation 14-2 in the second of a two-game, total-goal series. The navy took the first game, at Paisley, 4-0. Power-house for the winners was Boker H. M. Binge. Winnipeg, whose evenness and speed accounted for four goals and assists in four others.

AYR S. G. Richardson of Saskatchewan, Sask., and E. Petrie of Winnipeg each scored once. Petrie also had two goals.

## McGeer Raps Debt

### Canada's Post-War Program Requires National Currency For Success Declares M.P.

Continued From Page One

though our "pay" as we go policy has met with much success. The annual heavy debts are up from \$100,000,000 in 1939 to \$5,000,000,000 in 1943.

#### HEAVY DEBT LOADS

Our provincial debts are two billion dollars, our municipal debts one billion dollars.

The present total of interest-bearing public debt now carried by the Canadian taxpayer is therefore fourteen billion dollars, and the end is not yet. But it is something for the veterans to face when the fighting is over.

Notwithstanding the fact that our national income has increased from \$5,000,000,000 in 1939 to \$5,000,000,000 in 1943, and the exorbitant taxes now levied, we have been and still are going behind at the rate of nearly two billion dollars a year.

Mr. Towers points out that our public debt cannot continue to be increased at the present rate for indefinite period without placing an intolerable strain on our economy.

#### NO LESS OMNINOUS

Mr. Towers' views on the problem of post-war employment are no less ominous. He points out:

By the end of 1943 the gainfully occupied population had risen to approximately 3,100,000, but about 1,100,000 of these are at war and in war industry. The number available to meet our civilian needs, and a part of our war needs, is therefore about 2,000,000.

At least 1,500,000 more than that number will be seeking employment in that sector of the economy when the war is over. "A working force of this size," Mr. Towers says, "at present rate of efficiency" (greatly improved since 1939) "will be able to produce a vastly greater volume of civilian goods and services than Canada has ever known."

"As a result," Mr. Towers advises us that, "a vastly increased volume of consumption and production will be necessary if the output of high employment is going to be fully absorbed."

"The adjustments required," Mr. Towers warns us must be of "unprecedented magnitude, and bold planning on the part of labor, farm and business organizations and governments, is urgently needed."

#### GIVES REQUIREMENTS

In this review Mr. Towers tells the government that it must plan the post-war period.

1.—Service a public interest in the post-war period.

2.—The government must be able to produce at least four billion dollars, which may be twenty billions under the present system, before the war is won and wound up.

3.—Continuation of the employment of the 2,000,000 workers now employed in Canadian industry whose productive capacity has greatly increased since 1939.

4.—Find employment for at least another 1,500,000 Canadians now engaged in war and war industry.

Obviously Canadian industry producing consumer goods and services for the domestic market and export trade cannot provide full employment for all Canadians. Some other means of employment and some other measures of financing and distributing buying power to Canadian consumers must be developed.

#### CAN RAISE STANDARD

The adjustments that can be made are dependent in no small degree upon our war and war industry standards of living through the whole Dominion, and that can be done.

Disc the course of this war, starting from scratch, we have financed our own war, a navy and an air force of tremendous fighting power.

We have loaned \$300,000,000 to Britain, which is still outstanding, and in 1942 we gave Britain dollars to the value of \$1,000,000,000, and last year an even greater amount was given to our allies in mutual aid. Surely this record proves that we have mastered the problem of financing and distributing production far above the level of our total Canadian population.

We are now face to face with the problem of financing and distributing production and consumption. We are going to solve that problem by economic and political confusion simply because we have learned to produce abundance with ease.

#### YOU'RE IN THE ARMY NOW

Mr. Towers' views on the problem of post-war employment are no less ominous. He points out:

By the end of 1943 the gainfully occupied population had risen to approximately 3,100,000, but about 1,100,000 of these are at war and in war industry. The number available to meet our civilian needs, and a part of our war needs, is therefore about 2,000,000.

At least 1,500,000 more than that number will be seeking employment in that sector of the economy when the war is over. "A working force of this size," Mr. Towers says, "at present rate of efficiency" (greatly improved since 1939) "will be able to produce a vastly greater volume of civilian goods and services than Canada has ever known."

"As a result," Mr. Towers advises us that, "a vastly increased volume of consumption and production will be necessary if the output of high employment is going to be fully absorbed."

"The adjustments required," Mr. Towers warns us must be of "unprecedented magnitude, and bold planning on the part of labor, farm and business organizations and governments, is urgently needed."

In this review Mr. Towers tells the government that it must plan the post-war period.

1.—Service a public interest in the post-war period.

In solving the problem all are agreed that every effort should be made to increase our exports and to balance them with imports. "Three or four years after the war we will have to export goods to peoples in need who are unable to pay for them in money or kind."

But Mr. Towers recognizes we cannot look alone to the export market to solve our post-war employment problem.

Knowing that we are already swamped beyond the saturation point with unpayable debt and tax beyond the point of "diminishing returns," and knowing that wage earners are persistently being pushed by machines, it is not surprising, Mr. Towers tells us, that we must make "adjustments of unprecedented magnitude" to provide a vastly increased volume of consumption in Canada if high employment is to be maintained. The alternative is depression, the dole, poverty, misery and possible revolution.

Fortunately we have in the field of social service an opportunity to sustain not only social security but well to provide the maintenance of individual income, which alone provides consumer buying power.

We can and should extend the entire field of social service. What is more, we must do that very thing if we are going to provide people the means of living whose employment is not required in the enterprises that return capital investment and profit in the form of cash.

#### INCREASE PENSIONS

The number of and the amounts paid to old age pensioners, war pensioners, blind persons, mothers and children, invalids and those relying on superannuation should be increased and raised.

Our civil service, which must be extended to include an all inclusive program of social security, in truth one of the most effective opportunities we have to increase consumer income.

The numbers of our teachers, health advisers, supervisors, directors, and lecturers in the fields of social service can and should be greatly increased and their salaries must all be raised to higher levels.

The wages paid to our policemen, postmen, firemen and all others employed in our civic, provincial and federal governments, in our transportation systems and other public utilities, including the coal mines, can and should be raised, and the taxes on wages should be done away with.

But that field will not by any means take care of all who will be unable to find work producing wages and services required by consumers. Fortunately there is in every part of Canada untold fields of worthwhile employment.

#### RAILWAY IMPROVEMENTS

Our great railroad systems require straightened tracks, rock ballasted roads and the removal of all level crossings. The total list of our railroad rolling stock could be refitted and rebuilt to advantage. Much of the total rail mileage can and should be electrified, which electrification should be extended to serve adjoining rural and industrial communities. The St. Lawrence Waterway is but one example of electric energy awaiting to be harnessed. Flooded daily tremendous wastage down countless canals.

Our highways are still in the mould of the 19th century. Their modernization affords employment to an army of workers.

Our cities should be redesigned, the slums cleared away and in their place homes of health and sunshine should be built.

All Canadian cities should have, proportionate to their size, a civic centre, a city hall, libraries, theatres, a library and reading rooms, city parks, playing fields, swimming pools, auditoriums, stadia and amphitheatres, hospital and market centres.

Our schools are lacking in anything but the barest necessities. Each modern school centre should have in addition to the classroom and outdoor playgrounds, an audit room, library and reading room, gymnasium, stadium, swimming pool and all that is required to make the school centre an effective social and recreational meeting place for the city district.

In many of our cities the transportation system is a disgrace.

The adoption and prosecution of such a policy will, in the humble opinion be the correct interpretation of the spirit of the Liberal party in 1934-35, that we would use the Bank of Canada to control the issue of national currency and credit in terms of public need, not private gain.

The adoption and prosecution of such a policy will, in the humble opinion be the correct interpretation of the spirit of the Liberal party in 1934-35, that we would use the Bank of Canada to control the issue of national currency and credit in terms of public need, not private gain.

#### Declares Manitoba May Require Jobs

For 95,000 Persons

WINNIPEG, March 30.—(CP)—Prof. W. J. Watson, member of the department of political economy at the University of Manitoba, said Tuesday night the release of workers from war industries and the floating forces may find Manitoba requiring civilian employment for 95,000 and 60,000 persons after the war.

Speaking before the local branch of the Canadian Society of Technical Agriculturalists, Prof. Watson said the mere burden of finding employment for these persons would be a task of staggering proportions but governments would be expected to make up any deficiency.

Mr. Towers points out that our public debt cannot continue to be increased at the present rate for indefinite period without placing an intolerable strain on our economy.

Notwithstanding the fact that our national income has increased from \$5,000,000,000 in 1939 to \$5,000,000,000 in 1943, and the exorbitant taxes now levied, we have been and still are going behind at the rate of nearly two billion dollars a year.

Mr. Towers points out that our public debt cannot continue to be increased at the present rate for indefinite period without placing an intolerable strain on our economy.

Notwithstanding the fact that our national income has increased from \$5,000,000,000 in 1939 to \$5,000,000,000 in 1943, and the exorbitant taxes now levied, we have been and still are going behind at the rate of nearly two billion dollars a year.

## Churchill Reviews Paratroops

Premier Churchill is pictured with General Eisenhower as the English leader inspected Allied air-borne troops. "You will soon be landing in Nazi-occupied Europe," Churchill told the men.

## Canadian Officers Train in Pacific

OTTAWA, March 30.—(CP)—Defence headquarters announced last night 20 Canadian officers who left this country several weeks ago now are attachment to Empire and United States forces.

The headquarters announcement, amplifying a recent statement in the House of Commons by Defence Minister Balcan, that arrangements were being made for these attachments, said 10 officers are serving with American forces in the Pacific, eight with Australian and two with New Zealand forces.

The officers will undergo a course in jungle warfare and later they are assigned to fighting units of the forces concerned to gain actual battle experience in the Pacific area.

#### Airfields "Alive"

WASHINGTON, March 30.—(AP)—Many of the airfields used by Allied bombing planes in the war against Japan are literally alive. The U.S. military disclosed yesterday the civil engineer corps has started the use of living coral organisms in building airfields because the minute marine animals possess "a natural putty-like quality" which provides hardtopped runways.

#### To Go On Trip

MELBOURNE, March 30.—(AP)—Mrs. John Curtin, wife of Australia's prime minister, will accompany him on his forthcoming trip to Ottawa, Washington and London. This will be her first trip to America.

### SELF-SERVE FOOD MARKET

Countless other opportunities for employment are available and must be developed if the coming peace is to give us a Canada in which all the people may enjoy:

The right to adequate food, clothing, shelter and medical care. The right to security with freedom from fear of age, want, dependency, sickness, unemployment, and accident.

The right to education, for work, for citizenship, and for personal growth and happiness.

The right to rest, recreation, and adventure; the opportunity to enjoy life and take part in an advancing civilization.

Such a program will require not only bold planning on the part of all, but the full co-operation of federal, provincial and civic governments, the Bank of Canada and all other financial institutions.

CAN BE FINANCED But can we finance adjustments of such unprecedented magnitude? The answer is "Yes." Surely no one will refuse that certainty in the knowledge of what we have done in financing this adventure. To be told again, as we were in the last depression, that we haven't got the money, will be treated as nothing but sheer nonsense.

When peace comes I am sure that it will not only mean the end of Japan and Germany's selfish aggression, but it will mean the end of an epoch and the commencement of a new era.

We are surely coming to the end of the outworn and outmoded debt claim system and coming to the time when a system of managed currency will take its place.

Instead of hampering and hobbling all progress by financing with the issue of public debts we will finance high standards of living and greater national peace and integrity by the issue of and the management of the circulation of national currency.

Lincoln advocated that policy for the people of the United States in 1864, and Abraham Lincoln was not a crackpot, but one whose words great for a statesman was of the highest order.

#### SUSTAIN PROGRESS

With the coming of national currency we can balance our budgets and really pay as we go. We can sustain a sound rate of progress without fear of national bankruptcy and without need to raise taxes on all that can be provided by themselves for themselves.

Higher standards of living cannot be produced with pious hopes, unfilled promises and political speeches. They can only come when all the peoples are provided with gainful employment and when they are able to earn for themselves and are provided for by the state.

If we are going to escape in the post-war period a tragic recurrence of the depression, under-consumption, and of eventual national bankruptcy, we must stop issuing national currency and stop the issue of national currency and stop the issue of national currency and stop the issue of national currency.

# Your Baby Good Night, Sweet Prince

And Mine

By MYRTLE NEVER ELDERD

Poor appetites!

They crowd out a mother's consideration for almost any other factor of her child's day. She thinks blis would be hers if only the child would eat his vegetables, or drink his milk, or eat his cereal. Something always prevents an appetite from being ideal.

One reason for his dissatisfaction is that he does not allow for the child's natural dislike for the consumption of food. He actually does eat fast at two years of age, but he eats at one year. So lucky if he will eat one spoonful of the cereal, instead of the three or four he used to manage with ease.

When he refuses to eat the mother is in a panic and she cannot think of forcing food or urging the child to take just a little more, unless a premium upon getting a good appetite but upon getting down to eating.

Here is a child of 17 months who has always been a poor eater. With the coming of dentition and the succession of colds his appetite has sunk to the vanishing point. He makes up for daytime deficiencies by eating a bottle of food at bedtime another about 31 p.m. when the child wakes up in the night.

The chief cause of her present worry is his refusal of vegetables. When she serves food at night she is cutting down the child's appetite for it in daytime. He would get somewhere. No child this age should eat a bottle of food at bedtime and another about 31 p.m. when the child wakes up in the night.

Offer water after each meal. Encourage a habit which makes for over-indulgence in milk and an increasing disposition to refuse solid food.

Pattern 2046 contains a transfer pattern of a pig's 12 1/2 inch picture materials needed, color chart, illustration for needlepoint stitch.

Send twenty cent in coin for this pattern (stamps cannot be accepted) to Household Art Dept., The Edmonton Bulletin, 60 Front St. W., Toronto, Ont. Write plain name, address, pattern number.

Please allow a week or ten days for delivery.

It is NOT DANGEROUS TO PLAY A RADIO DURING THUNDERSTORMS

Another of the old ideas which became modernized with the advent of electrical devices, is the idea that a radio is dangerous if being struck with lightning if being played than it turned off during a storm. Scientists say there should be no danger whatever in playing the radio during thunderstorms providing there is a good lightning arrester (ground connection) led to the antenna. In any case, it is no more dangerous to use the set running than to have it turned off, authorities say.

When water mains were installed in Leadville, Colo., solder was so scarce that molten silver was used to seal pipe joints.
